# Field Trip No. 23.

## Canberra to Tumut - Adelong area.

19/2/51 Key & Chinnick.

30579. Mica Jasper horn - Off just S of Yass. Didalus australis, Acrida conica, Peakesia fusconacula, Phaula ciliatum vittatum, Brachyexarna lobipennis, Austroicetes pusilla, Praxibulus lanceolatus lanceolatus (R) duplex heavily thumbed, around big person size with Cyperaceae & Cynodon. 592. Murrumbidgee R. (Taemas Br.) Gastrimargus musicus, Didalus australis, Peakesia fusconacula, Phaul. vitt. Kurrajong on limestone. Praxibulus lanceolatus lanceolatus (R) duplex 597. Rhicnoa & occ. Heteropternis, Loxicelobus pulcher, Paratettix australis, Atractomorpha Crassicaps australis, Phaulacridium vittatum, Cryptobothrus chrysophorus, Macrotona australis, Peakesia fusconacula, Brachyexarna lobipennis, Macrotona scanformis, Bermius brachycerus (inter b. brachycetus & b. planicola)(R), Austroicetes pusilla, Praxibulus lanceolatus lanceolatus (R) duplex Rhicnoa & ? Oedaleonotus. 607. Hellidora - Staat. woodland on lower slopes rising to steep rocky slopes with Cordyle & occ. Minyacris nana macrorrhyncha, with few shrubs. Also a small soak with stagnant water & succulent plants. Phaulacridium low marginum, Macrotona scanformis, Bermius brachycerus (inter b. brachycetus & b. planicola)(R), Austroicetes pusilla, Praxibulus lanceolatus lanceolatus (R) duplex on upper slopes. Bermius, Atractomorpha, Tetrigids & Tetrigoiids round soak, remainder meyphere. Acrida, Yaats., Oed. Phaul. 612. Goodradigby R., Conocephalus sp., Macrotona australis, Mesa jasper. 616. DSF of Rossii & macrorhynchus occ. Cordyli. Undershrubs almost absent, ground mainly bare & covered with fallen bark & leaves. Yaats., Acrida (both on margins only), Phaul. 623 WSF of vimin

Tetrias sp., Praxilubus ~~laminatus laminatus (K)~~
Stuartiana, dwies, Robertsoni, macrorhy-
ncha, with understory of Acacia dealbata
to 10ft., other smaller shrubs. + Poa
caespitosa. Phaul. Few yards further on:
swamp with ovata. A. vulgaris. 30635.
Praxilubus, ~~laminatus laminatus (K)~~
Robertsoni or radiata + rubida, thinned.
Some blackberry. Phaul. Considerable
Themeda. Phasmids on peppermint.
635. Tomorrona.
656 Tumut.

20/2/51
Tumut 656 – back towards Tomorrona
Comphistes sp., Acrida conica, Phaulacridium
670. Just before crossing of Bungle Creek.
vittatum, Miniopsis rosea, Macrotona australis,
Turn round again. Casuarina stricta on
Peakesia fuscomaculata, Austroicetes pusilla
steep slope with numerous low shrubs
of several spp. to 3ft. + practically no
ground layer. Very stony. soil very friable
chocolate, rocks apparently mica-like.
Lower down towards Bungle Creek, Stuarti-
ana, bracken, etc. Gastr. + Acrida near
Aiolopus tamulus, Caledia
creek. 681. Tumut R. floodplain, completely

captiva, Phaulacridium vittatum, Schizobothrus
cleared, with Paspalum dilatatum & flavovittatus, Brachyrrhama tolipicus,
Cynodon, some cyperaceae. All short &
Chortoicetes terminifera, Austroicetes pusilla, Praxibulus laminatus laminatus (R)
up to 1ft. Gastr. Acrida, Oed.

Returned to Tumut — 30683. Thm, Addong.

Gilmore 688

Addong 697 — Continued on road to Tarcutta
Phaulacridium vittatum, Peakesia
South. 704. Rossii, polyanthemos, occ.
pusconaculata, Cryptobothrus chrysophorus,
blakeyi as a woodland on granitic rise.
Macrotona securiformis, Chortoicetes terminifera,
No undershrubs. Rather sparse Stipa-
Austroicetes pusilla, Caledia captiva smaragdina adulta (R)
Danthonia pasture to 1ft, but mainly
close-cropped. Chort. Phasmids on grass
~~inflorescences~~. peduncles

Return to Addong 712. — take Tumut road.
Aiolopus tamulus, Caledia captiva,
716. Melliodora, blakeyi, albens, slightly
Peakesia pusconaculata, Macrotona
thinned, with mainly dense growth of
securiformis, Praxibulus laminatus laminatus
pasture to 18ins. Phaul. Acrida Gastr.

Gilmore 721

Turnoff to Gundagai 725

Aiolopus tamulus,
Yoccup 731. 742. Cleared from albens
Acrida conica, Austroicetes pusilla
and Kunzeas. Pasture mainly fairly
dense to 1ft, with short-grazed patches.
Mainly rid. leg. Gastr. Chort.
742 Turning pt. back to Tumut. Tumut 760

21/2/51

30761 – left Tumut

766 Gilmore

767 – Rd Junct – Rd to Gadara. – Reka. [then back to site area]

~~At 76~~ Turned back from 772 (estimated) to Gadara 773. 1. Plantlacridium

777 Reka. Rd. Junct. 779. blakelyi, albens, vittatum, Oddlus australis, Peakesia melliodora, cordieri, macrorrhyncha fusconaculata, Austrocates vulgaris, A. pusilla, woodland, somewhat thinned. Fairly Praxibulus ~~laminatus~~ laminatus (R) duplex dense pasture to 1ft. Acrida, Phaul.

782 Adelong. ~~[Return on Tumut road]~~ then along Adelong – Gundagai Rd.

785 Shepards town.

786 ~~Grahams town.~~ 792. blakelyi, polyanthemos, Pardillana sp., Peakesia fusconaculata, Conpsophorthus chrysophorus, albens, melliodora, thinned. Shorto 1ft. Austrocates vulgaris, A. pusilla pasture, including shallow watercourse Acrida, Gastr. Oed., Phaul., Prax., Chor.

795 – Town. – no indication as to name.

795.7 Rd Junct – Adelong Rd N onto Albury – Gundagai Rd.
